To Whom It May Concern:

This memo serves as a Letter of Recommendation for American Wrecking. The El Monte Busway and Transit Center project was complicated, due to the close coordination and safety required for the general public and major bus operations. American Wrecking exhibited the diligence and expertise required to complete the project and displayed professionalism, reliability, and competency during the entire duration of their contract.

They were willing to perform extra work at reasonable pricing while continuing to make critical deadlines on a very fast-paced project.

The onsite crew was a pleasure to work with as they demonstrated hard work and constant motivation all while portraying a positive attitude. Their performance on the project exceeded the high standards we set for our contractors

It was a true pleasure working with American Wrecking.

Sincerely,

A handwritten signature in black ink that reads "Nathan Vaca".
